

AES interactive dj entertainment 50th birthday celebrations

So you're reaching another milestone! You know what you DON'T want for your party - a kid who's half your age playing songs you've never heard before at maximum volume through a distorted PA system! Requests? Anything you like as long as it's on the half dozen 70s & 80's albums he's downloaded. Been to that type of party? Here's how we see a great 50th happening...

When it comes to 50th birthday celebrations, AES has DJs who are suited specifically to your type of event. No cowboys. No rockstars. Just full-time, professional DJs who have earned their stripes playing in some of Melbourne's biggest clubs and pubs over the last 2 decades.

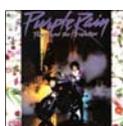

If you are into club hits, rock, dance, r'n'b, classic rock or contemporary chart music, we've got it. Nothing fires up a party like retro classics and that means the biggest pop and rock hits from the 70s, 80s, 90s and 00s. Got that covered too. And our **music selection forms** make it easy to construct your own playlist of your favourite songs. And your DJ can be as quiet or as interactive as you want him to be. Sound like your type of party? Read on...

Our **50th birthday celebration package** starts with our professional AES DJ, and includes a professional DJ system, a quality sound system, multiple lighting effects to fill the room with colour, a lighting truss, a wide music selection covering rock, pop, dance, motown, club hits, r & b, soul and a great mix of old and new Top 40 chart music. Smoke machines are also included at no extra charge (venue permitting).

All event packages include delivery, 1 hour set up, up to 5 hours of continuous music (calculated from guest arrival time), 1 hour pack down and pick-up.

Why not add Music Video to your party? Imagine your favourite bands larger than life on a giant 2.1m video screen! Picture a massive light show! Feel the thump of our RCF PA systems. Classic hits back to back with the latest releases. Cal one of our AES account managers for full details of this package.

You can also book a DVD presentation option and show a presentation of your life in photos to family and friends on our giant video screen.

It's the biggest and best 50th birthday celebration in town! So what are you waiting for? Think of a theme, book your AES DJ or Video-DJ, and get set for the PARTY OF THE YEAR!
